

What's Happening Wednesday

Kansas Immunization Program

VFC Nurse on Call - The nurse on call for next week is Dena Rueb at drueb@kdheks.gov. The nurse on call can be reached at 785-296-5592.

August 31, 2016

Chief Chat

The [2015 National Immunization Survey for Teens \(NIS Teen\) report](#) was released on August 26, 2016. This report provides encouraging news of progress to increase adolescent vaccination rates in Kansas. We encourage you to review the full report and we appreciate all of your continued commitment to increasing immunization coverage in Kansas.

The 2016-2017 influenza vaccine recommendations were published in a [CDC Morbidity and Mortality Weekly Report \(MMWR\) dated August 26, 2016](#). Please visit the link for messages and updated information. Here is a list of what is new for this season.

1. CDC recommends use of the flu shot (inactivated influenza vaccine or IIV) or the recombinant influenza vaccine (RIV). The nasal spray flu vaccine (live attenuated influenza vaccine or LAIV) should not be used during 2016-2017.
2. Two new flu vaccine options will be available during the 2016-2017 flu season.
 - a) One new vaccine is FLUAD™ which contains MF59, a type of adjuvant, and is licensed for use in people 65 years and older.
 - b) Adjuvant is an ingredient that helps create a stronger immune response in the patient's body.
 - c) A quadrivalent flu shot made with virus grown in cell culture will also be available for the first time this season and is licensed for use in people 4 years and older.
3. The 2016-2017 trivalent vaccines are recommended to contain:
 - a) an A/California/7/2009 (H1N1)pdm09-like virus
 - b) an A/Hong Kong/4801/2014 (H3N2)-like virus
 - c) a B/Brisbane/60/2008-like virus (B/Victoria lineage)
4. The 2016-2017 quadrivalent vaccines will contain the above three viruses as well as a B/Phuket/3073/2013-like virus (B/Yamagata lineage).
5. All cell culture and intradermal vaccines will be quadrivalent this season.
6. The egg allergy recommendations have been updated.
 - a) Anyone with an egg allergy can receive any licensed flu vaccine, however the vaccine should be administered in an inpatient or outpatient medical setting and they should be supervised by a health care provider who is able to recognize and manage severe allergic conditions.
 - b) People with egg allergies no longer have to wait 30 minutes after receiving their vaccine.
7. The vaccine timing language has been changed to say "You should receive a flu vaccine by the end of October, if possible."
8. Some children 6 months through 8 years old will require two doses of the flu vaccine this season.
 - a) The current recommendation is that children 6 months through 8 years of age need only one dose of 2016-2017 seasonal influenza vaccine if the child has previously received two or more total doses of trivalent or quadrivalent influenza vaccine before July 1, 2016. The two doses don't need to have been given during the same season or consecutive seasons.
9. Note: Instead of "morbid obesity" the term "extreme obesity" or "people with extreme obesity" should be used.

Chief Chat cont...

The posting for the North Central Immunization Nurse Consultant will close on Friday, September 2, 2016. If you have been thinking about applying but have not yet done so, please be sure to complete the application and submit it by Friday. We are looking forward to adding the next enthusiastic immunization team member to our program. Information may be found at the [State of Kansas job site, requisition number 1884450](#).

Due to the Labor Day holiday and coming out of a very busy back to school vaccination month, the vaccine ordering module will remain open until September 9, 2016. Please take note of this extension and carefully place your September vaccine orders by close of business on September 9th. Thanks for your cooperation.

Have a great week!

Phil Griffin, Deputy Director, Bureau of Disease Control and Prevention

VFC Question of the Week–

Q: Can a person indicating that they have egg allergies get a flu vaccine?

A: The recommendations for people with egg allergies have been updated for the 2016-17 flu season.

- People who have experienced only hives after exposure to eggs can get any licensed flu vaccine that is otherwise appropriate for their age and health status.
- People who have symptoms other than hives after exposure to eggs, such as angioedema, respiratory distress, lightheadedness, or recurrent emesis; or who have needed epinephrine or another emergency medical intervention also can get a licensed flu vaccine that appropriate for their age and health status. In this situation, the person should be given in a medical setting and be supervised by a health care provider who is able to recognize and manage severe allergic conditions.
- People with egg allergies no longer have to wait 30 minutes after receiving their flu vaccine.

DID YOU KNOW

Angioedema is the rapid swelling of the dermis, subcutaneous tissue, mucosa and submucosal tissue. An example of angioedema is when eyelids are swollen shut, or lip swelling.

Seasonal Influenza Update

As flu season begins, we work to keep providers up-to-date on how much flu we currently have available. As flu begins arriving at McKesson we start getting small allocations of doses to pass on to our providers. The chart below shows the current percentage of our allocation by NDC. As we receive provider orders we pass along the percentage we currently have to each ordering provider. The chart below will be updated each week with the current available percentage.

2016-2017 PEDIATRIC VFC FLU PRE-BOOK RECEIVED AS OF 8/31/16

Manufacturer	Brand	NDC	Age	Presentation	VFC Available	CHIP Available
GSK	Fluarix Quad (IIV4)	58160-0905-52	36mos+	10 1 dose syringes	28%	79%
GSK	FluLaval Quad (IIV4)	19515-0903-11	36mos+	10 dose vial	0	0
Novartis	Fluvirin (IIV3)	70461-0119-10	4 years +	10 1 dose syringes	0	0
Seqirus	Flucelvax Quad (IIV4)	70461-0200-01	4 years +	10 1 doses syringes	0	0
Sanofi	Fluzone Quad (IIV4)	49281-0416-10	36mos+	10 1 dose vials	39%	50%
Sanofi	Fluzone Quad (IIV4)	49281-0416-50	36mos+	10 1 dose syringes	9%	32%
Sanofi	Fluzone Quad (IIV4)	49281-0516-25	6-35mos	10 1 dose syringes	11%	39%
Sanofi	Fluzone Quad (IIV4)	49281-0625-15	6mos+	10 dose vial	0	0
MedImmune	FluMist Quad (LAIV4)	66019-0302-10	2-49 years	10 1 dose sprayers	N/A	N/A

We are actively seeking a Regional Immunization Nurse Consultant to join the Kansas Immunization Program. One position will be stationed in North Central Kansas. **This posting will close on Friday September 2nd**. Please visit the [State of Kansas job site](#) for information about requisition number 1884450. If you have questions please contact Phil Griffin at pgriffin@kdheks.gov or 785-296-8893.

KSWEBIZ Trainings

Aggregate Inventory Training—**Mondays at 1 p.m., First Friday at 10:30 a.m.**

The Aggregate Inventory Training occurs the first Friday of every month from 10:30 -11:30 a.m. This call will go over the basics of the On Hand, Reconciliation (MIR submission) and Vaccine Ordering windows in KSWebIZ for Aggregate Users. Bring questions and examples of issues that your clinic is having with the end of the month reporting. **Please note:** this call is for KSWebIZ Aggregate Users Only! After registering, you will receive a confirmation email containing information about joining the webinar. <https://attendee.gotowebinar.com/rt/6598705111102500354>

Register now for the date that works best for you!

Direct Entry Inventory Training— **Tuesdays at 1 p.m., First Friday at 12 p.m.**

The Direct Entry Inventory Training occurs the first Friday of every month from 12 -1 p.m. This call will go over the basics of the On Hand, Reconciliation (MIR submission) and Vaccine Ordering windows in KSWebIZ. Bring questions and examples of issues that your clinic is having with the end of the month reporting. **Please note:** this call is for KSWebIZ Direct Entry Users Only! After registering, you will receive a confirmation email containing information about joining the webinar. <https://attendee.gotowebinar.com/rt/4121654947304535298>

Register now for the date that works best for you!

New User Training— **Thursdays at 2 p.m., Second Friday at 12 p.m.**

The New User Training occurs the second Friday of every month from 12 -1 p.m. This basic training is for new KSWebIZ users, or people who would like a simplified refresher training on how to use KSWebIZ. We will be going over log-in, adding history, administering vaccinations, printing consents and pink cards. If you are a new user, have a new token, or recently had a token transferred to you please take the time to sit in on this training! **Please note:** this call is for KSWebIZ Direct Users Only! After registering, you will receive a confirmation email containing information about joining the webinar.

Register now for the date that works best for you! <https://attendee.gotowebinar.com/rt/1572841858584797442>

School Module Training- **Third Friday at 12 p.m.**

The School Module Training occurs the third Friday of every month from 9 - 10 a.m. This basic training is for new KSWebIZ school module users, or people who would like a simplified refresher training. **Please note:** this call is for KSWebIZ School Module Users Only! After registering, you will receive a confirmation email containing information about joining the webinar. <https://attendee.gotowebinar.com/rt/8422671756415350273>

Register now for the date that works best for you!

Reports Training- **Fourth Friday at 12 p.m.**

The Reports Training occurs the fourth Friday of every month from 12 - 1 p.m. This training is for KSWebIZ users who are wanting to learn more about the KSWebIZ Reports. We will be going over the various reporting sections and how to generate reports within these sections. We hope you have time to sit in on this training! **Please note:** this call is for KSWebIZ Direct Users Only! After registering, you will receive a confirmation email containing information about joining the webinar.

Register now for the date that works best for you! <https://attendee.gotowebinar.com/rt/568840407867357186>

NOTE: There have been additional trainings scheduled during the week for New User Training, Direct Inventory Training and Aggregate Inventory Training. The new times can be found above and when you register and select a specific training time. If these times do not work with your schedule or you have additional training needs please reach out to the IIS trainer msims@kdhhs.gov or 785-296-0687

Vaccine Redistribution

Please email any additions or changes to be made on the Vaccine Redistribution lists with subject matter “Redistribution” to vaccine@kdheks.gov or call toll free at 1-877-296-0464
http://www.kdheks.gov/immunize/vaccine_redistribution.htm

REMINDERS: Providers may place the excess doses on the KIP Redistribution list if:

- 1) The vaccine has a minimum of 90 days and a maximum of 365 days before the vaccine's expiration date;
- 2) The ordering provider is responsible for any doses which expire on the redistribution list that have not been accepted for transfer to another VFC provider;
- 3) Providers accepting vaccine from the redistribution list are responsible for using the doses once they are transferred. KIP encourages providers to accept only doses they can administer before the expiration date;
- 4) The transferring and receiving provider will document these doses on their monthly MIR/reconciliation reports as transferred vaccines.
- 5) Once vaccine is transferred please contact KIP to let us know so we can adjust the redistribution list by either deleting the line or by reducing the amount of doses.
- 6) All vaccines must be in full boxes
- 7) The KIP nurse consultant who is on call must be contacted prior to transferring vaccine
- 8) Providers are responsible for keeping KIP notified if there is a change in amount of doses available for redistribution.
- 9) When placing an order, you may be contacted if the vaccine you are trying to order is on the redistribution list.
- 10) Varicella and Proquad, will not be posted on the VFC or Private Vaccine Redistribution List. Frozen Varivax vaccines are very intolerant to out of range temperatures. To prevent potential vaccine waste the Kansas immunization Program requests that Varivax containing vaccines not be transferred to other providers. Questions regarding transporting vaccine call 877-296-0464 to request assistance.
